

THE RIVER IN THE TREES

YOUR FIELD CARDS · 01 TO 08

Keep these together until the story asks you to compare them. Open the book at the letter from Lia, then unfold the map to its expedition side.

Inside: one personalized book, one two-sided folding map and eight two-sided cards. A pencil is all you need once the set is assembled. Hints begin on book page 43.

HOME REVIEW PREPARATION

An adult prints the book at 100% on letter paper; the home file places each 8×10 in page centrally. Read loose or clip the pages in order. Print the eight card sheets single-sided. Cut each 8×6 in pair, then fold at its centre to make one 4×6 in card. The two map sides each use four 10×8 in tiles. Trim and join matching A-D tiles with optional tape, then put the two complete sides back to back. Check the one-inch calibration line before play. Manufactured copies arrive trimmed, folded and collated.

Review fold guides: wrap gently around a 4×6 in card stack; final stack capacity requires a physical test.
